ORIGINAL
RECEIVED

DEC 13 2002

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

In the Matter of)
)
Amendment of Section 73.202(b)) MM Docket No. _____
Table of Allotments) RM-_____
FM Broadcast Stations)
(Lake Havasu City, Arizona and)
Pahrump, Nevada))

TO: John A. Karousos, Chief
Allocations Branch, Policy and Rules Division
Mass Media Bureau

PETITION FOR RULE MAKING

1. Steven M. Greeley, the licensee of Station KJJJ(FM), Lake Havasu City, Arizona, hereby petitions for an amendment of the FM Table of Allotments, 47 C.F.R. §73.202(b), as follows:

| | Present | Proposed |
|----------------------|--|-------------------------------|
| Lake Havasu City, AZ | 216A, 244C2, 266C2, 272C2/B ¹ , 283C2 | 216A, 244C2, 266C2, 283C2 |
| Pahrump, NV | 236A, 298C | 236A, 298C, 2726 ² |

2. Mr. Greeley proposes that the city of license of Station KJJJ(FM) be changed from Lake Havasu City to Pahrump, Nevada, and that the channel be upgraded from Class B (as

¹ Station KJJJ(FM) is licensed to operate on Channel 272C2. However, it holds a construction permit (File No. BPH-2002-619AAB) to, *inter alia*, reclassify the channel as a Class B channel.

² In MB Docket No. 02-124, a proposal is presently pending which would modify the channels allotted to Pahrump, resulting in the allotment of Channels 234C, 250A and 298C. The allotment modification proposed in the instant Petition would not affect the proposals under consideration in MB Docket No. 02-124 and can be approved without regard to those proposals.

No. of Copies rec'd 0+4
List ABCDE
02-303 MB

specified in the station's outstanding construction permit) to full Class C.

3. In *Amendment of the Commission's Rules Regarding Modification of FM and TV Authorizations to Specify a New Community of License ("Community of License")*, 4 FCC Rcd 4870 (1989), *recon. granted in part*, 5 FCC Rcd 7094 (1990), the Commission established three criteria to govern proposed changes in a station's community of license:

- a First, the proposed channel must be mutually exclusive with its current use;
- Second, the existing Community of license must retain local service; and
- Third, the proposed arrangement of allotments should be preferred over the existing arrangement under the Commission's allotment priorities.

4. As demonstrated in the accompanying Engineering Statement, the site proposed for the use of Channel 272C at Pahrump is short-spaced to the currently authorized facilities of Station KJJJ(FM). Accordingly, the proposed substitution is mutually exclusive with its current use.

5. With respect to retention of local service, Lake Havasu City, Arizona, the current community of license of Station KJJJ(FM), is the city of license of four other FM stations -- Stations KBBC-FM, KNLB(FM), KRRK(FM) and KZIIL-FM -- as well as an AM station (KNTR(AM)). As a result, that community will continue to be well-served if Channel 272 is reallocated from Lake Havasu City to Pahrump, as proposed here. By contrast, Pahrump presently has only two other local aural services, Stations KNYE(FM) and KXTE(FM).

6. With respect to the Commission's allocations priorities, the changes proposed herein will result in a more efficient allotment of spectrum and will permit Mr. Greeley to serve a wider area. The 60 dBu contour of Station KJJJ(FM) on Channel 272 as a full Class C station will reach more than 777,000 more people than the station's authorized Class B facilities; the area within the Class C 60 dBu contour would exceed the corresponding area within the Class B

60 dBu contour by more than 17,000 square kilometers. In other words, the reallocation proposed herein would result in a 700% increase in population and a 202% increase in area. See Attachment A (Engineering Statement of Mullaney Engineering, Inc.). That increase in the efficient use of the channel is clearly preferable, particularly in the absence of any contrary considerations.

7. In *Community of License* the Commission expressed concern about the possibility that stations might migrate from underserved rural areas to well-served urban areas. In assessing that risk in particular cases, the Commission stated that it would apply the criteria set out in *Faye and Richard Tuck*, 3 FCC Rcd 5374 (1988). In this case, Pahrump is not part of any urbanized area (although Pahrump itself is shown as an "urban cluster" by the U.S. Census Bureau). Thus, it does not appear that a *Tuck* showing is required. However, since the reallocation of the channel to Pahrump would result in the provision of a 70 dBu signal in the Las Vegas urbanized area, the following information is provided.

8. The 2000 population of Pahrump (a census designated place, according to the U.S. Census website) is 24,631, which is 5.1% of the 2000 population of Las Vegas (478,434). See Attachment B. While Las Vegas is no doubt larger than Pahrump, the two communities are some 50-60 miles apart and, as discussed below, Pahrump is distinctly independent of Las Vegas. See, e.g., *Headland, Alabama and Chattahoochee, Florida*, 10 FCC Rcd 10352 (1995) (relative populations are less important than evidence of independence).

9. As noted above, the change in site location for Station KJJJ(FM) will result in a net gain in population of more than 770,000 persons (10,920 population within presently authorized contour v. 887,895 population within proposed contour) within the station's 60 dBu contour. See Engineering Statement.

10. In assessing the independence of a community for purposes of a *Tuck* showing, the Commission considers a variety of factors, including: (i) the extent to which the community's residents work in the larger metropolitan area, rather than the specified community; (ii) whether the small community has its own newspaper or other media covering local needs and interests; (iii) whether community leaders and/or residents perceive the community as being separate from the larger metropolitan area; (iv) whether the community has its own local government and elected officials; (v) whether the community has its own telephone book or zip code; (vi) whether the community has its own businesses, health facilities and transportation systems; (vii) whether the community and the larger urbanized area are part of the same advertising market; and (viii) the extent to which the community relies on the larger metropolitan area for municipal services such as police, fire protection, schools and libraries. *Tuck*, 3 FCC Rcd at 5378.³

11. In the instant case, there can be no doubt but that Pahrump is plainly independent from Las Vegas.

a Extent to which Pahrump residents work in Pahrump

12. The most recent U.S. Census labor force data available (for 1990) indicate that 132 (4.5%) of the 2,885 persons 16 years and over who comprised the Pahrump labor force walked to work or worked in their place of residence. *See* Attachment C. According to the Chairman of the Pahrump Town Board, there are currently **over 1,800 businesses** in Pahrump. *See* Attachment D. These include several chain retail outlets, five full-service casinos, and "an endless variety of retail shops and commercial enterprises", according to Pahrump's website. *See* Attachment E.

³ Importantly, it is not necessary that **all** of these factors support the independence of the community. If a majority of the factors establish that independence, the Commission **will** treat it as an independent community. *E.g., Tuck; Parker and Port St. Joe, Florida*, 11 FCC Rcd 1095 (1996).

13. Newspapers and other media

14. Pahrump has two local newspapers, one (*The Pahrump Valley Times*) published twice weekly, the other (*The View*) published weekly. See Attachment F. Both provide coverage of local news and events, including local sports, local crime incidents, obituaries and the like. According to its website, *The View* “focuses on neighborhood news . . . including community news, personalities, zoning issues, entertainment, business growth, education, sports and more”. In addition, Pahrump has two local FM stations (KXTE and KNYE) and a web-based “radio station on the internet” which refers to itself as KPAH, “webcasting” news, issues and opinions pertaining to Pahrump. See Attachment G. Also, Pahrump has a local LPTV station (K41CQ) which promotes itself as a “source of daily community news and information”, with “locally produced shows [which] provide entertainment and information prevalent to our town.” See Attachment H. Finally, multiple websites concerning Pahrump are accessible through websites established by the community’s government (www.pahrumpnv.org) and Chamber of Commerce (www.pahrumpchamber.com).

15. Pahrump’s perception of independence

16. As described at the website of the Pahrump town government, Pahrump was first settled in the 1870’s, and formally became a township in 1892. See Attachment E. Importantly, the town notes that Nevada Highway 160 (also referred to as “the Las Vegas Road”) was not paved until 1954, some 75 years **after** Pahrump was first settled. It is therefore clear that Pahrump was established and grew independently of Las Vegas, which is some 50-60 miles distant from Pahrump. More than 65 of the businesses listed in PahrumpPages.com (an internet listing of Pahrump business listings) contain “Pahrump” in their names. Pahrump offers a community center, community swimming pool, an annual Pahrump Harvest Festival and Parade,

numerous rodeos, baseball, softball and soccer tournaments and an Indian Pow-Wow. *See* Attachment D. In addition to the Pahrump Chamber of Commerce, the town also features an Economic Development & Tourism Advisory Board dedicated to “promoting and facilitating business growth and encouraging existing business by planning and expanding the economic base of the community.” See Attachment I.

17 Pahrump’s local government

18. Pahrump is governed by an elected town board, an appointed professional town manager and a staffed town office. Local governmental boards include the Pahrump Arena Advisory Board, the Economic Development & Tourism Advisory Board, the Pahrump Emergency Services Advisory Board, the Pahrump-Nye County Fairgrounds and Recreation Advisory Board, the Pahrump Parks and Recreation Advisory Board, the Pahrump Public Lands Advisory Board and the Pahrump Tourism Advisory Board.

19 Pahrump has its own Zip Codes

20. The U.S. Postal Service has designated 89041 and 89048 as the Zip Codes for Pahrump and its immediately neighboring area. A U.S. Postal Service Post Office is located in Pahrump.

21. Pahrump has numerous commercial establishments and other facilities

22. As indicated above, according to the Chairman of the Pahrump Town Board, there are over 1,800 businesses operating in Pahrump. Also as indicated above, more than 65 of those specifically identify themselves by using Pahrump in their names. There is also a Pahrump Chamber of Commerce and other organizations which promote the Pahrump business community and economic climate. A “Pahrump Town Hall” website (www.geocities.com/pahrump_townhall) provides listings and links to Pahrump media, casinos,

community events and a business directory. According to those resources, Pahrump features multiple health facilities (*e.g.*, Family Health Care Center, Advanced Medical Center, Pahrump Medical Center), at least one dental facility (Pahrump Family Dental), multiple chiropractic offices (*e.g.*, Affiliated Chiropractic, Inc., Desert Valley Chiropractic and Family Chiropractic), and multiple animal care facilities (*e.g.*, Animal Care Center of Pahrump, Nye County Veterinary Hospital).

23. The Pahrump Valley View lists 13 separate churches located in Pahrump. See Attachment J (<http://www.viewnews.com/pahrump/churches.html>). See also <http://www.rapidyne.com/pahrump/churches.htm>.

24. **As** indicated above, Pahrump features an annual Pahrump Harvest Festival and Parade, numerous rodeos, baseball, softball and soccer tournaments and an Indian Pow-Wow. The Pahrump Information and Welcome Center website lists approximately 50 civic and social organizations active in Pahrump, including the **Elks**, Kiwanis, Moose, American Legion, Knights of Columbus, Rotary and VFW. See <http://www.rapidyne.com/pahrump/lodge.htm>

25. Nature of advertising market

26. Businesses in Pahrump may advertise in either of the two Pahrump newspapers, on either of the two Pahrump radio stations, on the Pahrump LPTV station, or through a number of internet sites which provide links to Pahrump businesses. Plainly, Pahrump advertisers enjoy considerable opportunities to reach local customers through local resources completely separate from and independent of Las Vegas.

27. Pahrump provides its own public services

28. Pahrump has its own volunteer fire department, and shares police, ambulance, and search and rescue facilities with Nye County. Pahrump has its own library, open all day, Monday

through Saturday, and a senior center. It also has an extensive local school system (administered by the Nye County School District, which is located in Pahrump) featuring three elementary schools, a middle school and a high school, all located in Pahrump, with total enrollment of approximately 3,700 students. *See* Attachment K. Local garbage is disposed of at the Nye County Landfill/Pahrump, and recycling services are available locally.

29. Conclusion concerning Pahrump's independence

30. The foregoing factors clearly demonstrate that Pahrump is an independent community separate and apart from the urbanized area of Las Vegas, both as a matter of economic, geographic and demographic reality and also as a matter of the self-perception of the townspeople of Pahrump.

Conclusion

31. No other allotments would be affected by the proposed changes and, since the proposed upgrade would occur on the existing channel of Station KJJJ(FM), it is not necessary to demonstrate the availability of any additional equivalent channel. *See* Section 1.420(g) of the Commission's rules. The proposed changes comply with all applicable engineering standards. *Id.* It should also be noted that the geographic area in question is not within 290 kilometers of the U.S.-Mexico border. Accordingly, Mexican concurrence will not be required.

32. In the event that the proposed changes are adopted, Mr. Greeley will take all steps necessary to promptly seek authority to construct, and to construct and commence operation with, the upgraded facilities proposed herein.

33. Accordingly, as set forth herein and in the accompanying Engineering Statement,

Mr. Greeley proposes that *the* FM Table of Allotments be amended as follows:

| | Present | <u>Proposed</u> |
|----------------------|--|-----------------------------|
| Lake Havasu City, AZ | 216A, 244C2 266C2, 272C2/B, 283C2 | 216A, 244C2 266C2, 283C2 |
| Pahrump, NV | 236A, 298C | 236A, 298C, 272C |

Respectfully submitted,

Robert L. Olender

Declaration

I, John J. Mullaney, declare and state that I am a graduate electrical engineer with a B.E.E. and my qualifications are known to the Federal Communications Commission, and that I am an principal engineer in the firm of Mullaney Engineering, Inc., and that I have provided engineering services in the area of telecommunications since 1977. My qualifications as an expert in radio engineering are a matter of record with the Federal Communications Commission.

The firm of Mullaney Engineering, Inc., has been requested by Steven M. Greeley, to prepare the instant engineering exhibit in support of a rule making petition to amend the FM Table of Allotments (FCC Facility ID Number: 63410).

All facts contained herein are true of my own knowledge except where stated to be on information or belief, and as to those facts, I believe them to be true. I declare under penalty of perjury that the foregoing is true and correct.

Executed on the 6th day of December 2002

ENGINEERING EXHIBIT EE-RM:

**RULE MAKING TO AMEND
FM TABLE OF ALLOTMENTS**

**DELETE CH. 272 AT LAKE HAVASU CITY, AZ
ALLOT CH. 272 TO PAHRUMP, NV**

NARRATIVE STATEMENT:

This engineering statement has been prepared on behalf of Steven M. Greeley, licensee of Radio Station KJJJ(FM), at Lake Havasu City, Arizona (Facility ID 27982). KJJJ(FM) holds a CP (BPH-20020619AAB) to operate on Ch. 272B in lieu of its present operation on Channel 272C2 (BLH-19940601KA) at Lake Havasu City, **AZ**. The purpose of this statement is to provide engineering in support of a rule making petition to amend the FM Table of Allotments to delete Ch. 272C2/B at Lake Havasu City and re-allot Ch. 272C to Pahrump, NV, and to modify the license of KJJJ(FM) accordingly.

The city of Lake Havasu City will continue to be served by five aural services (4-FMs & 1-AM) and grant of this proposal will result in the fourth aural service to Pahrump, NV (4-FMs).

KJJJ(FM) wishes to point out that the upgrade it seeks is on its **existing channel** with a proposed location which is **less than** the separation specified by Section 73.207 and, therefore, it is not necessary to demonstrate the availability of an additional equivalent channel in accordance with Section 1.420(g) of the rules.

The proposed reference point is not within 290 kilometers (180 miles) of a United States Border and, therefore, foreign concurrence is not required.

Proposed Reference Site

For the purposes of this rule making KJJJ(FM) proposes to use a special reference point for a site 15.6 km west of the city of Pahrump, NV:

| | | | | | |
|---------|---------------|------|-----|-----|--------|
| RM Ref. | N. Latitude: | 36" | 15' | 25" | NAD-27 |
| | W. Longitude: | 116° | 08' | 45" | |
| Pahrump | N. Latitude: | 36" | 12' | 30" | NAD-27 |
| | W. Longitude: | 115° | 58' | 59" | |

The proposed reference site will provide an unobstructed view of the city of license, Pahrump, NV and is located close enough to serve the entire community with the required 3.16 mV/M or 70 dBu contour. Figure 2 is a general area map showing Pahrump, NV with plot of the intervening terrain.

Channel Allocation Study

Figure 1 is a Channel Allocation Study from the city reference point for Pahrump, Nevada. The study indicates the actual & required separation in kilometers *to* all licenses, construction permits, applications, vacant allocations and pending rule makings. From this study it can be determined that proposed reference point exceeds all of these minimum separations.

The CP site of KJJJ(FM) is located 227.3 km (141.3 miles) away whereas the required co-channel separation Class B-C is 274 km (170.3 miles). Therefore, the proposed substitution is in accordance with Section 1.420(g) and is not required to demonstrate the availability of an additional equivalent channel.

Public Interest Showing

KJJJ(FM) presently holds a CP to operate as a Class B FM facility with maximum equivalent facilities (4.5 kW at 467 meters HAAT). The proposed change in community & upgrade to Class C facilities will permit KJJJ(FM) to serve a wider area and more population. KJJJ(FM) CP will provide a 60 dBu service to 110,920 persons and 8,730 square kilometers. KJJJ(FM) anticipates construction of a maximum Class C facility which will potentially provide 60 dBu service to 887,895 persons and 26,370 square kilometers (2000 Census). This represents a 700% increase in population and a 202% increase in area.

The proposed allotment of 272C to **does not provide** a 70 dBu city grade service to 50% or more of any urbanized area.

The city of Pahrump, NV is located in Nye County and has a population of 24,631 persons (2000 Census). The allotment of Channel 272C will **be** the fourth aural service licensed to this community. The city of Lake Havasu City will continue to have one licensed **AM** (980 kHz) and four licensed FM facilities upon grant of this RM petition.

Based upon the above information, KJJJ(FM) believes that its request results in a preferential arrangement of allotments and therefore, serves the public interest.

SUMMARY

Steven M. Grceley, licensee of Radio Station KJJJ(FM), at Lake Havasu City, Arizona (Facility ID 27982) requests that the FM Table of Allotments be amended to delete Ch. 272C2/B at Lake Havasu City, **AZ** and re-allot Ch. 272C to Pahrump, NV, and to modify the license of KJJJ(FM) accordingly.

| | Present | Proposed |
|----------------------|--|--|
| Lake Havasu City, AZ | 216A, 244C2, 266C2, 272C2/B , 283C2 | 216A, 244C2, 266C2, 283C2 |
| Pahrump, NV | 234C-RM-ADD 236A->250A-RM, 298C | 234C-RM-ADD 236A->250A-RM 272C , 298C |

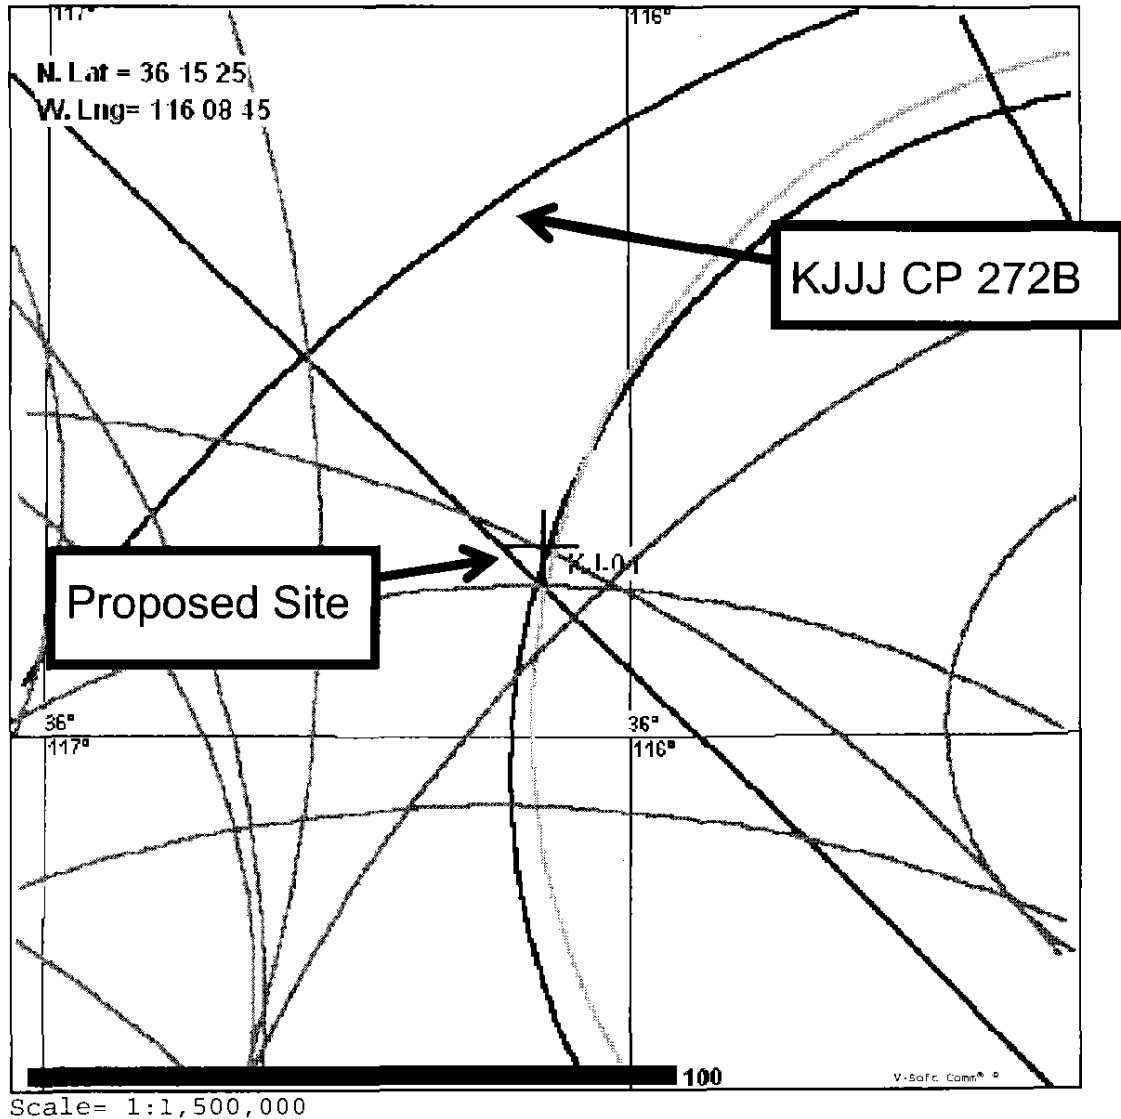

-> Channel Change by Rulemaking.

KJJJ(FM) believes that the proposed change in community and upgrade to Class C facilities will serve the public interest. If granted, KJJJ(FM) will quickly file an application for construction permit.

/s/ John J. Mullanev

A Message from the Town Board of Pahrump

On behalf of the Pahrump Town Board and staff I would like to take this opportunity to invite all the readers of this site to come and visit our town and enjoy our western hospitality

Our high desert climate, with warm, sunny days and cool nights, along with our friendly residents is certain to make many of you want to remain. This is evidenced by the fact that Pahrump is one of, if not the, fastest growing rural town in America. As might be expected of a community that is growing at this rate, we have many things in the works to improve the quality of life for both our long-term residents as well as our new ones. Among these are plans for a new hospital which is scheduled to begin being built in 2002, a new library has recently been constructed, several large quality residential and commercial areas, a new golf course and a 425 acre fairgrounds and rodeo arena is in the planning stages. The Community College of Southern Nevada has built a new High Tech Computer Learning Center and is working on plans for a full scale Community College Campus.

We also have many annual events throughout the year such as the Pahrump Harvest Festival and Parade, numerous rodeos, carnivals, baseball, softball and soccer tournaments, Indian Pow-Wow and off-road races. As you read through this web-site I'm sure you will find information that will entice you to visit or re-visit our community.

The town is also involved with several other communities and organizations on the Nevada Science and Technology Corridor which runs from Pahrump to Tonopah 180 miles to our North. This exciting project includes many innovative sites and endeavors, which will help insure our economic future.

Our proximity to Las Vegas (65 miles), Los Angeles (225 miles), and Death Valley (60 miles) are also prime reasons to plan to visit Pahrump on your travels.

Once again, on behalf of the Pahrump Town Board. staff and our over 1800 businesses we wish to encourage you to come and enjoy our hospitality. **As** our Town Motto states **this** is truly *a* place where ***"Past and Present Working Towards a New and Better Future"***.

If you would like more information, please feel free to contact the Town Office at 400 N. Highway 160, Pahrump, NV 89060, or phone 775-727-5107.

Thank you,

*Mary
Wilson*

Chairman,
Pahrump Town
Board

PAHRUMP, NV ATTACHMENT E

A Brief History Of Pahrump Valley

The word Pahrump, a Paiute term, has been interpreted to mean "water rock" or "place where big waters flow". Reports show that the Pahrump Valley sits above a huge aquifer of approximately 22 million acre-feet of water. Settlers first appeared in about 1875 and a Pahrump township was created by a small group in 1892. Cotton and grapes were grown for a number of years but the area didn't kick-off until after the Las Vegas road (now Nevada Highway 160) was paved in 1954. Power arrived in 1963 and telephones in 1965.

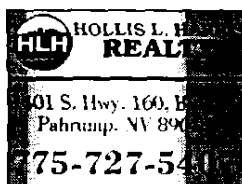

Today the Pahrump Valley is one of the fastest growing towns in Nevada and the United States. It is growing at an annual rate of approximately 20%. The town is served by an active elected town board, an appointed professional town manager and a well staffed town office. Telecommunications in the valley is state of the art with a fiber optic installation completed in 1999. Former farming land is being developed into housing at the highest rate in the state. Several major housing developments are currently under construction and will eventually provide over 10,000 new homes in the valley. The area boasts several chain retail outlets, five full-service casinos, numerous service stations and an endless variety of retail shops and commercial enterprises. There are two area newspapers and an independent TV station.

The town's near proximity to Las Vegas (-60 miles) makes for easy access to world class rail and air service. Nevada Highway 160 from Las Vegas is the shortest route to Death Valley recreation facilities.

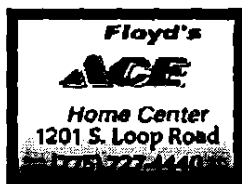

If you are looking for a touch of rural life with the convenience of a large world class destination just 60 miles away, then the Pahrump Valley is the answer. The Pahrump Valley offers a country-like atmosphere with clean fresh air, plenty of good water and friendly people who are glad to call you neighbor. We have low taxes, NO personal or corporate taxes, quite affordable housing and an easy-flowing lifestyle.

In the Pahrump Valley, people are relaxed and enjoy life because there is no traffic to fight, very little crime and more time to do the things they enjoy. The breath-taking sunsets with the picturesque Mt. Charleston and the Spring Mountains to the east and the Nopah Vista Mountains to the west are a sight to behold. There are ample recreational opportunities associated with these mountains.

Each View Newspaper focuses on neighborhood news happening in the selected geographic area it covers, including community news, politics, personalities, zoning issues, entertainment, business growth, education, sports and more.

An affordable alternative for:

- Small businesses who want to advertise in the newspaper, but don't need to reach the entire city.
- Larger businesses who want to target specific areas of the city to feature their neighborhood locations.

Pahrump Radio - KPAH

This is the web site for Pahrump, Nevada's first radio station on the internet!

We're "webcasting" news, issues, opinions, pertaining to Pahrump and its outlying areas. And, the whole world can tune in!

UFO information, such as reports, interviews, etc., is also included, as our programming strives to be "un-mainstream". And, Pahrump is practically at the back door of Area 51!

We also plan to simulcast on the airwaves from the top of our 60 foot tower, located over 200 feet above the valley floor.

Please e-mail any questions, comments, upcoming events, etc., to:

kpah@pahrumpradio.com

The Economic Development Advisory Board meets at 7:00 PM on the fourth Thursday of each month usually in the Bob Ruud Community Center, Room B. The public is welcome at these meetings.

OUR MISSION

The Pahrump Economic Development Advisory Board is dedicated to promoting and facilitating business growth and encouraging existing business by planning and expanding the economic base of the community. This will be accomplished by providing the basis for attracting a diversity of services and products for our community, establishing a business base that provides a source of jobs for our workforce, and attracting employers and industries that are consistent with Pahrump's quality of life and the needs of its rapidly growing population. Therefore, this Board dedicates itself to establishing realistic, achievable goals in pursuit of this mission.
